

VOL. 10, NO. 58.

CONNELLVILLE, PA., WEDNESDAY EVEN'G., JAN. 17, 1912.

EIGHT PAGES.

**MISS DULL IS BRIDE
OF J. RAY MESTREZAT****Quiet Wedding at the Arlington
Marked by Elaborate
Appointments.****GO EAST FOR THE HONEYMOON****Only Relatives and Immediate Friends
Are Present at Ceremony Last
Night Which Was Followed by
Wedding Supper.**

One of the prettiest home weddings in recent years was that of Miss Emma Kate Dull, eldest daughter of Mr. and Mrs. William Dull, of Ray Mestrezat, solemnized last evening at 8 o'clock in the private parlors of the Arlington Hotel, the home of the bride. While very quiet, an account of the serious illness of the bridegroom's sister, Mrs. Humbert, the wedding was marked by elaborate appointments. A yellow and white color scheme predominated. Only immediate relatives of the two families and a few intimate friends of the couple witnessed the ceremony.

Shortly at 8 o'clock the bride and groom entered the parlor to the strains of Lohengrin's wedding march played by Mrs. George Marletta, an aunt of the bride. First came the Miss Dull bridesmaids, Dorothy Dull, a sister of the bride, and Albert Humbert, a nephew of the bridegroom, marking the bridal path with white velvets and white satin ribbons, followed by the flower girls, little Jean Marletta and Louise Soloman. The maid of honor, Miss Anna Lee Dull, is sister of the bride. The bride wore a white gown with a high collar and long sleeves, and a long train. The ceremony was performed by Rev. J. L. Humbert of Selkirk, Pa., brother-in-law of the bridegroom, assisted by Rev. J. L. Prout, pastor of the First Presbyterian church, of which the bride is a member. The ceremony took place beneath a canopy of aspidistra, anthurus and narcissus with a bouquet of white roses and white roses and ferns. During the ceremony "Hearts and Flowers" was rendered by Mrs. George Marletta. The bride wore a gown of white tulle with a high collar and long sleeves, and a long train. The bridegroom wore a tuxedo with a white shirt and a white bow tie. The ceremony was followed by a wedding supper.

Immediately after the ceremony, the guests assembled in the large ballroom of the hotel where an elaborate wedding dinner was served. At the bride table covers were laid for 36, while at a long table on the opposite side of the room, covers for 30 were spread. The decorations were unusually pretty, the same color scheme prevailing in the dining room in the parlor rooms on the second floor. The center piece at the bride's table was made of a low arrangement of white and blue of the valley. Mrs. Dull, mother of the bride, wore a gown of blue and white with a high collar and long sleeves, and a long train. The bridegroom wore a tuxedo with a white shirt and a white bow tie. The ceremony was followed by a wedding supper.

The bride and groom were accompanied by the bridesmaids and the maid of honor. The bridegroom's father, Mr. William Dull, and the bride's father, Mr. George Marletta, were also present. The ceremony was followed by a wedding supper.

**STATE INSPECTOR VISITED
HIGH SCHOOL YESTERDAY****Professor March Expressed Himself
Pleased With Work That Is
Being Done—In County
a Week.**

State Inspector Thomas March paid an unannounced visit to the High School yesterday and found everything satisfactory. He spent the entire day watching the work done by Principal Bruce U. P. Coburn and his corps of teachers.

**STAR JUNCTION
HAS BAD FIRE****Auditorium There Burned
at Early Hour This
Morning.****ADJOINING DWELLING SCORCHED****Fire Was Discovered by James Pike,
Who Spread the Alarm—Loss Will
Amount to Several Thousand
Dollars—Lodges Are Losers.**

Star Junction was visited by a conflagration which resulted in the destruction of the Auditorium, owned by the Washington Coal & Coke Company, and scorched the adjoining dwelling of James Pike, a barber. The fire broke out at about 3 o'clock this morning and was discovered by James Pike, who spread the alarm. The loss will amount to several thousand dollars. The lodges are the losers.

**NOTHING DOING AT
COUNCIL MEETING****Only Eight Members Appeared
and They Hid Themselves
Elsewhere.****BOARD OF HEALTH'S REPORT****There Were 84 Cases of Typhoid Fever
During Period Covered by Report—Appropriation of \$3,000 Is
Requested.**

Other attractions, the theatre and the basketball game, the revival services at the different churches might have had their effect too, also coupled with adverse weather conditions, kept down the attendance at the regular Council meeting last night. But eight of the faithful answered the summons, therefore not constituting a quorum. All of the members who were on the job were equally anxious to get away before any more made their appearance, so the meeting might not be too smug. At the stroke of 8, the members took their seats, together with the Mayor and Assistant Engineer. The minutes were read and approved. The Mayor then presented a report from the Board of Health, which was read and approved. The Mayor then presented a report from the Board of Health, which was read and approved.

**ROCKWOOD WILL HAVE NEW
\$20,000 BANK BUILDING****Formers & Merchants Expect to Have
Work Started on Structure
Early in the
Spring.**

ROCKWOOD, Jan. 17.—At a meeting of the stockholders of the Farmers and Merchants National Bank an announcement was made that a new home for the concern will be erected early in the spring. The building, which is to be two stories and built, will cost \$20,000.

**CHARITY COMMITTEE
HALTS ITS CANVASS****Enough Has Been Subscribed
to Meet Immedi-
ate Needs.****IMPOSTERS MAKE APPEARANCE****Side Meat Was Returned in One In-
stance and Best Bacon Asked as
Substitute—Postoffice Employees
Donated—Bacon Families Aided.**

Burgess Deans and his charity committee resiled from their labors yesterday, no subscriptions for the poor being taken. In the recent canvass the Burgess said that he had seldom been refused aid. A collection was taken among the employees of the postoffice recently. This was turned over to Rev. J. L. Prout, pastor of the church, making a grand total of \$175.50 subscribed and pledged since the canvass started three days ago.

Rev. J. L. Prout, chairman of the Charity Committee, has been having his troubles. Coincidentally with the raising of the relief fund, he has been harassed by impostors who have endeavored to relieve the minister of excess cash. One family, for whom a quantity of side meat was purchased, returned the meat to the minister, claiming that it was for a different family. The minister, however, has been able to identify the family and has returned the meat to them.

The Salvation Army has been a great help in locating the deserving poor. Commander Eastford of the local post and his followers have been in a position to know throughout the year just past, every family in the town who was in need of help. The information accumulated by them is now a great help to the active workers in the relief campaign. While the charity workers are always on the lookout for impostors, suffering in more than a dozen families that have needed immediate relief has been alleviated through their efforts.

The plan of leniency which was thought forward at a recent meeting was carried out. It was decided that if it was found that a family was in need of help, it would be granted a loan of \$10.00. This plan was carried out and has been a great help to many families in need.

**CHESTNUT BLIGHT
HAS HIT SOMERSET****State Representative Finds
Traces of Dangerous
Tree Disease.****WILL FIGHT TO EXTERMINATE IT****It Was Generally Believed the Blight
Had Not Crossed the Alleghenies
Until J. M. Hoffman Made His Dis-
covery—Foresters Worst Enemy.**

SOMERSET, Jan. 17.—J. M. Hoffman, who is associated with the Chestnut Blight Commission appointed by Governor John E. Tener, in pursuance of a recent Act of Assembly, appropriating \$25,000 for the purpose of discovering, if possible, the origin of the blight and the methods of fighting it with a view to its extermination, is in Somerset county inspecting chestnut groves in Somerset and Brothersvalley townships.

While driving from Berlin to Somerset he discovered evidence of the first well-defined case of blight west of the Alleghenies mountains, it having heretofore been accepted by the authorities that the blight had not made its way west of this mountain range and that its ravages were confined to Allegheny county and Eastern Pennsylvania. The chestnut tree blight has been especially destructive in New York, New Jersey and Eastern Pennsylvania, and it has been recently estimated by foresters and lumbermen that the blight is responsible for the destruction of trees of the value of between \$25,000,000 and \$50,000,000.

The blight first made its appearance in the United States about 12 years ago, and is supposed to have been brought in by nursery stock imported from Japan, although there is no absolute certainty that such is the case. Infestation once started on a tree, the blight spreads with marvelous rapidity, usually destroying all of the chestnut growth on a farm or timber reserve, and perhaps, adjoining tracts, in two or three years.

Inspector Hoffman has carried his investigation with carefulness, and the sensitivity of the Commissioner throughout Eastern Pennsylvania during the past five months, and has only recently been made aware of the blight in this section of the State. Having satisfied himself that the blight has reached Somerset county, he will return here later for the purpose of continuing his investigation.

Evidence that the blight has infested a tree is nearly always manifested in leaves that die and cling to the branches. It was in this way that Inspector Hoffman discovered the blight in the neighborhood of Berlin, where he found two well-defined cases. The bark of blight-infected trees has a reddish appearance, not unlike bark that has been severely scorched by fire.

The blight may be, and it is believed by foresters to have been, carried long distances by birds, and it also spreads by insects and by the wind. Of all the known enemies of forestry the chestnut tree blight is one of the most damaging. That this statement is correct is conclusively proven by the steps which have been taken by many of the States, and by the Federal authorities, to eradicate it as speedily as possible.

The chestnut growth in Somerset county is immense and of great value. When the first evidence of blight is detected on a tree, it is imperative that it should be cut down and burned.

The chestnut growth in Somerset county is immense and of great value. When the first evidence of blight is detected on a tree, it is imperative that it should be cut down and burned.

Leisenring.

LEISENRING, Jan. 17.—January 21 there will be preaching at Leisenring at 11 A. M. at Monarch at 3 P. M. and at West Leisenring at 7:30 P. M. All are invited.

Rev. G. G. Copland and wife of Cairo, W. Va., were here this week for a short visit with Rev. and Mrs. Raymond. Mr. Copland is pastor of the Hughes river Presbyterian church at Cairo, and he and his wife are very popular with all the people of the town. The Hughes river church is conducting a series of revival and as the town is rapidly growing the church will soon be one of the most important in the State.

Rev. H. H. McMillen of Clinton, who was announced to preach at Leisenring January 17th, failed to reach the town in time to hold service. He came on the 11:30 car and all the people had gone home. He missed the connection at Vance's Mills.

Owensdale.

OWENSDALE, Jan. 17.—Mrs. Olive Thomas of Leisont was visiting relatives near Morgan yesterday.

Robert Bush was attending to matters of business at Scottdale yesterday.

Prescription that Soon Knocks Rheumatism

The only logical treatment for rheumatism is through the blood. The poisons that settle in muscles, joints and back, causing sore throats, must be dissolved and expelled from the system or there can be no relief. This principle from a noted doctor is said to be working wonders all over the country. Hundreds of the most famous were cured by it here last winter. "From your druggist get a bottle of this medicine (in original sealed package) and follow the directions. It is a sure cure. Take these two ingredients home and put them into a half pint of good whiskey. Shake the bottle and take a tablespoonful before each meal and at bedtime. Before you take the first dose, if your druggist does not have Tonic Compound in stock he will get it in a few hours from the nearest house. Don't be influenced to take some patent medicine. The Tonic Compound is having the genuine Tonic Compound, one ounce, sealed, yellow package."

Lumber Dealers of Two States.

DENVER, Colo., Jan. 16.—(Special.)—The Colorado and Wyoming Lumber Dealers' Association met in its annual convention at the Brown Palace today with a good attendance from the two States.

Inventive Sighting Device.

EDMUNDS, Jan. 16.—(Special.)—Volunteer Sergeant Commandeur, a crack shot, has invented a sighting device for rifles, eliminating the necessity of moving the rifle. He claims a percentage of 95 hits.

Vanderbilt.

VANDERBILT, Jan. 17.—Elijah Trear of Dawson was a business caller here yesterday.

T. M. Blackson was calling on East Liberty friends yesterday evening.

Miss Flora Cole has returned to her home at Mt. Braddock after a very pleasant visit here with friends.

Mrs. Scott Osborne and baby were visiting East Liberty friends yesterday.

Mrs. P. E. Ogilvie and daughter, Miss Estelle, have returned home after a pleasant visit with the former's daughter, Mrs. J. J. Horner at Conneltsville.

Clarence McFarland was a recent business caller at Conneltsville.

Ray Neville of Dawson was a business caller here yesterday.

Alkins, the Conneltsville gas man, was here collecting for the Fayette County Gas Company.

Mr. and Mrs. John Marshall of Sharon are spending a few days here this week.

Miss Eva Addis has returned home after a few days visit with her friend, Miss V. W. Wellinger of Carnegie Avenue, Conneltsville.

Mrs. Frank McFarland has returned to her home at Dunbar after a short visit here with Mr. and Mrs. J. J. McFarland.

James Gentry of East Liberty was a business caller here yesterday morning.

Winney Winterhalter is now a full fledged resident of our town, having just moved his family here from East Liberty.

Rockwood.

ROCKWOOD, Jan. 17.—J. M. Wolf, foreman of Rockwood, was in town last evening for Richmond, Va., where he will be a patient at the National hospital for several weeks.

Dryman L. Sullivan has sold his day business and outfit to Mrs. E. C. James D. Griffith will operate the day for Mr. Souwer.

George M. Miller has returned home from the Cottage state hospital, Conneltsville, where he underwent an operation for a fracture of the skull.

John F. Summerville will begin the opening of the new mine in Black township for the coming of Western Maryland engines, beginning Monday, January 22, on the 11. Snyder and D. B. Zimmerman farm. They will be ready for any loading of engines as soon as the new road is ready for use.

MUTUAL INSURANCE COMPANY.

Somerset County Concern Had Only \$1,200.72 Losses in 1911.

The Somerset Mutual Fire Insurance Company has elected the following officers for the ensuing year: President, John F. Snyder; Vice President, Josiah Specht; Treasurer, Frank R. Granger; Secretary and Manager, James M. Cook; Assistant Manager, Charles H. Fisher of Somerset.

With the following and the officers of the board of directors is composed: Dr. B. H. Hinch of Somerset; R. St. Coughnour of Windber; Robert C. Herley of Berlin; V. M. Black of Confluence; Robert E. Boeris of Somerset; John C. E. Mer of Rockwood; Irvin P. Dull of Leesportville, and Milton J. Pritts of Somerset.

Since its incorporation on September 14, 1905, the company has been fortunate in the payment of contributions entailing losses for it, being called upon during its existence of six years to pay out losses aggregating only \$25,993.70. The losses for the year, 1911 were exceptionally low, there being a total of only \$1,200.72, taking into consideration that the company has in force nearly a million dollars worth of insurance. It was reported to the annual meeting that all losses to date have been paid in full. The annual meeting of the stockholders was held at Somerset on Thursday.

Hardware Men Meet at Spokane.

SPOKANE, Wash., Jan. 17.—(Special.)—Spokane, Jan. 17.—For three days a large gathering of representatives of the retail hardware trade throughout this section of the country, the occasion is the annual convention of the Pacific Northwest Hardware Association, which opened today and will continue its sessions until Friday.

Pushing Wilson Boom in Wisconsin.

MADISON, Wis., Jan. 17.—(Special.)—At a conference to be held tomorrow the initial steps will be taken looking to the formation of a Wisconsin State organization to work in the interest of the Woodrow Wilson boom for the Democratic presidential nomination.

QUICKLY DRIVES OUT ALL THE RHEUMATIC POISON

Acts on Kidneys, Liver, Stomach and Blood First Day—That's RHEUMATISM'S WAY.

The second day you take RHEUMATISM, the doctor's remedy that is selling so rapidly the country over, you'll realize that when RHEUMATISM goes in, it is not long out.

It matters not whether you are tormented with pain, crippled with swollen joints or distressed with occasional twinges, RHEUMATISM is guaranteed by A. A. Clarke to end your rheumatic trouble or money back.

This new discovery is just as effective in cases of indigestion, flatulence, acidity, dizziness, neuralgia and kidney disease.

Rheumatism is a dangerous disease. It often attacks the heart and causes death. It is the greatest danger to the human system. Get a bottle of RHEUMATISM and drive it from your system right now. A bottle only costs 25 cents. Mail orders filled by RHEUMATISM Co., Buffalo, N. Y.

ENGINEER FOR FUN

When County Treasurer Wants Diversion He Grabs the Throttle.

When it comes to taking a little diversion from their duties at the court house in Greensburg, some county officials may take spins in their automobiles, play a little golf at the Country club, or do some similar society stunt.

But James M. Cramer of Youngwood, Westmoreland county's new

treasurer, will show them diversion excursions. When he wants something decidedly out of the common run, Mr. Cramer will go down to Youngwood and play chauffeur for a gasoline box locomotive.

It is a story that doesn't occur every day, or year, in political circles.

Treasurer Cramer was an engineer. In fact has been one for year and year out, and is yet. He has become quite moment among railroad employees, holding a leading official position with the Brotherhood of Locomotive Engineers.

Just to show that he is still an engineer, right with the boys, and to

continue in his place with the brotherhood, Treasurer Cramer will pilot an engine over the Pennsylvania road at certain intervals.

In speaking of the occasional runs Mr. Cramer intimated that he would not go out very often, since he has begun his term at the court house, engineer enough to retain his place in railroad circles. The runs, however, may be only short ones.

In connection with Youngwood affairs, the first money paid into Treasurer Cramer's hands, was by Coroner M. A. McMurray, who resides in the railroad town, and the first

money paid out by Mr. Cramer, was to Ray Rishbecker, also of that place. The first warrant from the treasurer's office for 1912, however, was sent to Howard Croushore, of Ruffsdale.

Manufacturers to See Canal.

CHICAGO, Ill., Jan. 17.—(Special.) A party of 150 members of the Illinois Manufacturers' Association, many of them accompanied by their families and friends, left this city this morning on a special train bound for New Orleans. From New Orleans the party will travel to the Panama canal.

No More Constipation --WHEE!

It's Me for Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 17 years and Calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing laxative.

No griping in the "keynote" of these little sugar-coated tablets.

They cause the bowels and liver to act normal, never force them to unnatural action.

It is easy to compel bowel and liver activity for a time with castor oil, but the after effects are dangerous, and the real cause of the trouble is often not even touched.

Dr. Edwards' Olive Tablets are so easy to take that children do not regard them as "medicine" at all.

If you have a "dark brown mouth" now and then—a bad breath—a dull, tired feeling—sick headache—torpid liver and constipation, you'll find quick, sure and only pleasant results from one or two little Olive Tablets at bedtime. They're perfectly harmless.

Thousands take one every night just to keep light. Try them.

"Every little Olive Tablet has a movement all its own."

10c and 25c per box. The Olive Tablet Company of Columbus, Ohio.

If you're served with any other whiskey than "Old Farm," pay the man with counterfeit money—he'll be just as well satisfied as you.

"Old Farm" is delightfully mellow and old, with a flavor found only in well aged, seasoned whiskeys.

It's bottled in bond—made from the purest mountain water and choicest rye.

Insist on being served "Old Farm" Whiskey.

WEDNESDAY EVENING, JAN. 17, 1912.

Conservation of Coal.
Commenting on the alleged statement of Doctor Joseph A. Holmes, Director of the Federal Bureau of Mines, made before the American Association for the Advancement of Science at a recent meeting in Washington, that "of all the coal mined in the United States fully one-half is lost," and that "this waste amounts to \$500,000,000 annually," the Washington Observer says:

This statement startled the association and it should lead to some government action to prevent the practical waste of precious coal.

It is well known that right here in the bituminous coal region coal worth millions of dollars is allowed to remain in the ground when parts of outcrops are abandoned and supports removed.

The small veins above or below the large vein with intervening strata of clay or rock are not mined because the operators consider it too expensive a process.

After the pits are pulled out and the roof caves in it is impossible at any time in the future to mine these small veins.

They should be taken out when the large vein is being mined and the law should require it.

But the coal operators of Pennsylvania will say that they can not afford to do it so long as West Virginia and other States do not require it.

Competition is keen and the margin of profit small.

It would appear that only by the enactment of national laws in all the bituminous coal States or by the assumption of power by the Government can the waste be prevented.

If the Government owned the mines it would be an easy matter for it to either lease or operate all of them with restrictions and requirements as to mining.

All the waste of which Doctor Holmes speaks is not in mining as much of it would be eliminated by better management, but against these devices many big corporations fight on account of the initial cost of their installation.

Inasmuch as the total amount of coal produced in the country is only something like \$300,000,000 tons annually valued at approximately \$800,000,000 we are inclined to think that Doctor Holmes has been misquoted.

The further statement that one-half the coal is wasted in mining may apply to some mining regions but it does not apply to the Connellsville region, where mining practices have reached a high state of economical perfection, because of the enterprise of operators who realize the comparative value of their coal and have at some expense provided the means of recovering practically all of it.

Such conditions as described by our contemporary may exist in the Pittsburgh district, but it will be difficult to compel the operators to mine thin and detached veins at a loss in order to avoid the transportation theory, even when the Government takes over the coal mines. It will probably take over the railroads, the trolleys, the industrial concerns, the farms, the stores and the newspapers, particularly the latter.

The Observer will then be absorbed in fact as well as in theory.

All Lives Lead to Connellsville.
Speaking of the proposed West Penn extension from Blaine to Uniontown, the Uniontown Herald tells its readers that near credulous readers the following rainbow tale:

These credulous provide for the entry into Uniontown of the line that has been built from Connellsville as far as Blaine, the present terminus of which is about five miles from this town. It will bring the Lanesburg, Elm Grove, Phillips, and the Olivers into Uniontown, which is the most important street railway extension the town at present could wish.

This new line draws a territory more than ten thousand population. The Connellsville and Uniontown line has been the people's dream for years. It has the favor and better mercantile establishments, the more numerous places of amusement and which is the county seat to boot.

Uniontown is the county seat, but it must not be so. It is not. It is criticized too severely. It happened when she was quite young. Added from this damnable fact, however, there is nothing serious in the charges against her, because they are utterly unsupported by the facts, save perhaps in the single instance of the Olivers, who really reside in the suburbs of Uniontown, and naturally prefer to deal there than to travel twelve miles to Connellsville. As a matter of fact they have been dealing in Uniontown and doing their own walking for many years.

The statement that the Uniontown stores are better than those of Connellsville will be a statement. It is certainly a statement that has never been advanced before. Connellsville merchants are known throughout the Connellsville coke region for their enterprise and they are able to maintain the reputation of Connellsville as the commercial center of the Connellsville coke region.

The Uniontown line can blow its head off, but it cannot make the people of the coke region believe anything else, because they have abundant reason to know.

The Put of Gold at the end of the Rainbow has never been found. All these lead to Connellsville.

Knocking on Wood.
The esteemed Waynesburg Messenger, official organ of the Rockwater Democracy of Greene county, announces its adherence to President Woodrow Wilson in the following characteristic manner:

We are for Woodrow Wilson, all right, but consider, a candidate for President he reminds us of a white horse we were mighty well acquainted with back in the days when we were a boy on the farm. Old Charley was all right until you wanted to hitch him up to show off or go to market, and then you found he had either choked, stepped on a nail, got something in his eye, or rolled in some green stuff in the pasture that made you wish for the

time being, he belonged to some other party.

There is a plaintive note of protest in this declaration which indicates that the Rockwater organ has concluded that Woodrow is the best of a poor lot to choose from.

The Messenger has been in Democratic politics for a century. It has not always been wise, but it has usually been forthright and sometimes forlorn.

It is evident, however, that in the coming campaign it is disposed to knock on Wood.

The Honorable Curtis Hussey Grege has already thrown his lightning glove into the Democratic arena and bade adieu to all ambitious voters who may desire to contest his nomination.

It would be folly for any Democrat in the district to enter the primary lists against the Honorable Curtis Hussey Grege. He has been a near Speaker of the House and is the idol of the Westmoreland Democrats. He is also reputed to be a friend of the Keystone Party.

But he was elected in an Off Year, and there does not seem to be any Keystone Party this year; at least none worth mentioning.

Secretary Chase of the Young Men's Christian Association seems to be creating a vacancy that is not being strenuously chased.

The United States Supreme Court has sustained the decision of the lower courts, that American armor plate manufacturers are not infringing upon the patents of German manufacturers. The question is technical, but there is the possibility that it might become international.

Greensburg has discovered a woman who dresses in man's clothing, and blames it on Uniontown. When it comes to spurious sport, Uniontown is perhaps just one lap ahead of Greensburg, but in this individual case Greensburg should be compelled to prove the lap.

The little sparrow is having a hard winter. The forage is poor in bitter weather. Some bread crumbs scattered in the yard and the bird left off the garbages and on the back porch would help the little feathered fellows very much.

The charity work of the Chamber of Commerce is doing fairly well from a financial standpoint.

Miss Mildred Wave from Steelton, Pa. left this morning for Atlantic City, Pa. such a gay old chap. He makes us all dance. He is going to make 'em trot around lively on the Board Walk, too.

The by-products of the Beef Baron are reported to have been velvet. This is the first time velvet was known to be made out of hides, hide and tails. Truly, 'tis a wonderful age.

Automobile owners are playing a serious game of tag.

The free lodging of crumps at the lock-up this cold weather is "the charity that knows no evil," but as a business proposition it is bad. If practical, each lodger should be paid as well as housed, and in return should be compelled to do some sort of useful public service, even if it is only to polish up the handle of the front door.

The Connellsville macaroni business is keeping step with the Connellsville coke business.

Uniontown financiers are reported to be organizing a Beef Trust, possibly with a view to getting the Velvet.

William Jennings Bryan may no longer be the Peerless Leader, but he is a Powerful One yet.

Our Released Contemporaries.
The Somerset Democrat announces that it has added 21 new subscribers to its list and wants to know why the Somerset merchants do not advertise more liberally.

The Meyersdale Commercial is booming the establishment of a hospital, now that the political campaign is over. The hospital ought to have been located during the campaign, if it is intended to cure political hurts.

The Meyersdale Commercial wants County Board to trade. With headquarters at Somerset.

IN LAPLAND.
By Emma of Yukon.

Little children and old people who are able to live through the short summer have no trouble to pull through winter in Lapland.

The Meyersdale Commercial in our language by a High School Junior means ice, blizzard, severity of cold, the children who really reside in the suburbs of Uniontown, and naturally prefer to deal there than to travel twelve miles to Connellsville. As a matter of fact they have been dealing in Uniontown and doing their own walking for many years.

The statement that the Uniontown stores are better than those of Connellsville will be a statement. It is certainly a statement that has never been advanced before. Connellsville merchants are known throughout the Connellsville coke region for their enterprise and they are able to maintain the reputation of Connellsville as the commercial center of the Connellsville coke region.

The Uniontown line can blow its head off, but it cannot make the people of the coke region believe anything else, because they have abundant reason to know.

The Put of Gold at the end of the Rainbow has never been found. All these lead to Connellsville.

Knocking on Wood.

WHAT THE MILL TOWN IS DOING THESE DAYS

Prof. Surface is Engaged for the Annual Horticultural Meeting.

WILL BE A STAR ATTRACTION

Scottdale Savings & Trust Company Holds Annual Election—Scottdale Men Visit Pittsburgh Show—Bridge Street Pool Room Halted.

Special to The Courier.
SCOTSDALE, Jan. 17.—Enthusiasm marks the annual meeting of the Scottdale Horticultural Society, whose members are busy already in securing speakers for a meeting which will be held during the next few weeks at Scottdale, the headquarters of the Farmers' Institute of next week. The Scottdale Horticultural Society, organized here a couple of weeks ago, has already secured a star speaker for their first annual meeting the first of October. The speaker is Prof. H. A. Surface, the economic zoologist of the Department of Agriculture, and one of the best known men in the State. It will be a great thing to have Prof. Surface here, as he is at the head of the movement to bring better conditions to the farms and orchards, and as such every farmer knows Prof. Surface through his valuable advice in the newspapers or through correspondence, of which Prof. Surface carries on a tremendous amount. This is the first time Prof. Surface has been secured for this section, and it was through the influence of Prof. J. S. Briggs, the organizer and honorary member of the association, that the leader of the work was engaged for Scottdale. The name of Prof. Surface is one of the most widely known in the horticultural world, and his coming here will be a great help to the people of this community who are learning of its value to the public in general. Arthur J. Porter of Scottdale is the Secretary and Edward Werkman, of Hawkeye, the Treasurer. Membership in the society costs but \$1 and applications should be addressed to either of these men with the above named fee enclosed.

ELUCIDATES ITS OFFICERS.

The annual meeting of the stockholders of the Scottdale Savings & Trust Company was held in the banking rooms of the company yesterday afternoon and the following men were chosen at the board of directors for the coming year: Mr. M. T. Smith, Mr. L. E. Overholt, A. C. Overholt, A. L. Keister, D. P. Keister, F. O. Keister, J. E. Freeman, J. E. Freeman, J. S. Parker and S. P. Porter. The board organized and elected the following officers: President, J. S. Parker; Vice President, A. L. Keister; Treasurer, Henry Laubach; and Assistant Treasurer, A. J. Strickland.

W. G. Meyers, the host of Scottdale, and J. E. Freeman of Altoona, President of the Westmoreland County Horticultural Society, were in Scottdale yesterday attending the Farmers' Institute. They were in Scottdale yesterday attending the Farmers' Institute. They were in Scottdale yesterday attending the Farmers' Institute.

EXAMINATIONS ARE DUE.
The faces of the High School pupils were becoming gray as these days do not altogether the effects of the biting winds, but a cure that is pointed there by the expectancy of the examinations for the Middle year, which open tomorrow. Those examinations take place in the High School and the pupils are now putting the last finishing exercises in on their books.

RAIDED POOL ROOM.
Chief Frank McCadden and Officers Austin Hyde and H. B. Faith were busy late last night with a raid they pulled off on the pool room on Fifth street, which is much frequented by the negro citizenry of town. Five of the habitués were arrested, a charge of gambling being entered against them. All put up forfeit for a hearing this evening.

A NEW THERMOMETER.
Joe Hahn has put a new thermometer out at the side of his barber shop. There ought to be a law abolishing thermometers in such weather.

POH SALE.
Six O. L. C. pigs, six weeks old. W. E. Mer, Pennsville, Pa. Tel-States phone.

CASCARETS CURE A BILIOUS HEADACHE

Gently But Thoroughly Cleanse Your Liver, Stomach and Bowels and You Feel Great by Morning.

You're bilious, you have a throbbing sensation in your head, a bad taste in your mouth, your eyes burn, your skin is yellow, with dark rings under your eyes, your lips are parched. No wonder you feel ugly, mean and ill tempered. Your system is full of bile not properly passed off, and what you need is a cleansing medicine. Don't continue being a bilious nuisance to yourself and those who love you, and don't resort to harsh physics that irritate and injure. Remember that every disorder of the stomach, liver and intestines can be quickly cured by morning with gentle, thorough Cascarets—they work while you sleep. Don't let a box from your druggist will keep you and the entire family feeling good for months. Children love to take Cascarets, because they taste good and never grip or sicken.

Mrs. Schumann-Heink Will Sue for a Divorce; Says It Was Question of Choosing Her Children or Husband

Mrs. Schumann-Heink and Her Family.

CHICAGO, Jan. 17.—It is believed that Mrs. Schumann-Heink's suit for divorce from her third husband, William Hopp, will be filed here, though Mr. Hopp has an office in New York and the singer has homes in New Jersey and California. The famous contralto made the announcement of her intention to seek legal freedom after a concert in St. Louis. Mrs. Schumann-Heink is fifty-one and her husband is thirty-nine. They were married in this city May 28, 1905. In announcing her intention to sue the diva said: "I have no word to say against Mr. Hopp. He is a gentleman, cultured and refined. But it is best that he should go his way and I go mine. There were no ugly quarrels nor any scandal. It was just for the best that I have acted as I have. My children caused the separation. He could not understand. And I should not blame him too harshly for it. He has no children of his own, while I have eight, and some of them are grown. When it came to a question whether it should be my children or my husband, to whom I have been married six years, I chose to my children. And what good woman would not? They are my life, and I love them with every breath that I draw."

NEWS OF THE DAY IN MT. PLEASANT

Happenings of Interest in the Busy Town Among the Hills.

WHAT THE PEOPLE ARE DOING

Trying Hard to Get Boy Scouts Scouts Meet Up Quickly—Now 49 Members in Mt. Pleasant Organization—Missionary Meeting.

MT. PLEASANT, Jan. 17.—Rapid strides are being taken by the Boy Scouts Council to have the Boy Scouts get in their rooms. Last evening President John Warden, Secretary William Overholt, Scout Master Percy King, Walter Evans and Prof. C. G. Gordy of the Scout Council met at the Zimmerman furniture store and plans were laid to make an effort to have the boys in their rooms by next week. Next week there will be a troop organization of three patrols to a troop. Already six patrols have shown their willingness to become members. This makes 48 boys who will be members as soon as they have been sworn in. As yet only one patrol has been sworn in. The dues for each will be ten cents per week to go into the Scout treasury. An invitation has been extended to the Scouts to attend the Men's Union Bible Class meeting at the Reformed church on Sunday. A meeting will be held on Thursday evening by Scout Master King to see how many boys will accept the invitation. At a meeting to be held by the Central Post on January 26, equipment will be decided upon.

The girls of the Junior Class of the High School will hold a large party in the Bank building Thursday evening. Mrs. D. M. Plummer entertained the Mt. Pleasant Home Missionary Society at her East Main street home yesterday afternoon.

Mrs. Mary Ida McFee entertained the Daisy Bow Sewing Circle at her East Main street home last evening. Friends of Edward Stuever will regret to learn that he is suffering from a very painful bruised arm, received by falling on the icy street in front of C. G. Page's East End Grocery.

Joseph Jones and Clayton Torrance of Scottdale were callers in town last evening. Mrs. J. J. Foust, Mrs. Gibson and Miss Agnes Snodden were callers in Scottdale yesterday.

Mrs. Arthur Page of Blinier is the

Women's Secrets

There is one man in the United States who has perhaps heard more women's secrets than any other man or woman in the country. These secrets are not secrets of guilt or shame, but the secrets of suffering, and they have been confided to Dr. R. V. Pierce in the hope and expectation of advice and help. That few of these women have been disappointed in their expectations is proved by the fact that ninety-eight per cent. of all women treated by Dr. Pierce have been absolutely and altogether cured. Such a record would be remarkable if the cases treated were numbered by hundreds only. But when that record applies to the treatment of more than half a million women, in a practice of over 40 years, it is phenomenal, and entitles Dr. Pierce to the gratitude accorded him by women, as the first specialist in the treatment of women's diseases.

Every sick woman may consult Dr. Pierce by letter, absolutely without charge. All replies are mailed, sealed in perfectly plain envelopes, without any printing or advertising whatever, upon them. Write without fear as without fee, to World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

DR. PIERCE'S FAVORITE PRESCRIPTION Makes Weak Women Strong, Sick Women Well.

RAILROADS CONSUME MOST OF THE FUEL

Estimated They Use Approximately Half the Bituminous Production.

ONE REASON FOR SMALL PROFITS

Operators of Pennsylvania and Other Fields of Central Competitive District Should Get \$1.25 Per Ton, Says Geological Survey.

Examination of the distribution of the coal produced in the United States, and for what purposes used, shows that the railways used about 20,000,000 tons, and that the quantity grows each year. Recent studies of economists by railway managers have served to draw attention to the large outlays for fuel, and also to the low percentage efficiency obtained from the coal used on locomotives measured by the available amount of energy inherently within it. It is disclosed in Bulletin 402 of the Geological Survey that only 45 per cent of the possible power in the coal is utilized in effective work when used on a locomotive, and the losses are accounted for as follows:

(1) Standard losses, consisting of fuel used in keeping up steam while engine is standing idle, in starting the train, and in taking out on the ground and stoking, 10 per cent; (2) losses due to unconsumed gases escaping through stack, 10 per cent; (3) losses due to unconsumed fuel in chimneys and sparks, 10 per cent; (4) losses due to unconsumed fuel in fires, 2 per cent; (5) losses due to radiation, leakage of steam and miscellaneous sources, 5 per cent; (6) utilized in effective work, 45 per cent; total, 100 per cent.

In five year periods railway expenditures for fuel are given as follows:

Year	Amount
1901	\$106,561
1902	\$106,561
1903	\$106,561
1904	\$106,561
1905	\$106,561

Inasmuch as the total coal output for the year 1910 is valued by the survey at \$1,000,000,000, the value of the bituminous coal consumed by the railways is \$500,000,000. It is also shown that the railways used nearly one-half of all the coal produced, or that the value of the bituminous coal consumed by the railways is \$500,000,000. It is also shown that the railways used nearly one-half of all the coal produced, or that the value of the bituminous coal consumed by the railways is \$500,000,000.

It is claimed that the railways and other heavy consumers have borne down the price of coal to unprofitable heights, that by having done so other buyers of equivalent quantities of coal at prices—of which it is probably true, it has also been claimed that if the roads would consent to pay only one cent more per ton, they would be profitable to the producers of coal. Let us see.

Five cents the ton added may be roughly figured as one-twentieth of the average price of the bituminous coal of the whole country, this being \$1.25 so we would have then, on the value of the mines, of one-half of the gross output of bituminous coal, \$1,000,000,000, \$125,000,000 more than was paid in 1910, or roughly \$250,000,000.

There is another way of looking at this. The price of coal, however, which is that a very large quantity of this coal was purchased in the State of Pennsylvania, Maryland, West Virginia, Kentucky, Ohio, Indiana and Illinois. The price of coal in the State of Pennsylvania, for example, was only \$1.01 per ton, so that while an addition of five cents per ton might help out the producers of coal in that State, it would not help out the producers of coal in the other States, and in fact, it would be a disadvantage to the producers of coal in the other States, and in fact, it would be a disadvantage to the producers of coal in the other States.

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous For Connellsville People to Neglect.

WORKING UP TO CAPACITY NOW

Between 200 and 300 Boxes of the Delicacy Are Being Shipped Weekly and Manager Nannini Says the Orders Keep Coming In.

FAMOUS AMERICAN INDIANS ALBERT NANNINI, THE CRAZY HORSE.

Through a village of the Ogallala Sioux dashed a pony, crazed by flight. A baby boy had just been born in the village, and the appearance of the maddened pony was taken by the infant's parents as an omen. So the little boy was named "Crazy Horse."

(Among various Indian tribes it has always been the custom to give each child the name of the first object on which its mother's eyes happen to fall after the baby's birth. This accounts for such odd Indian titles as "Crazy Horse," "Poor Dog," "White Snake," "Gold Dollar," "Hedge Pole," "Boiling Kettle," etc.)

Crazy Horse from the first hated civilization and was the sworn enemy of the government. He stirred up the southern Sioux to keep on leading their pitiful life and to refuse to settle on any reservation. In consequence he speedily found himself the leader of hundreds of "bad" Indians, both of his own and of other tribes. He was the firebrand of the whole frontier. More than once, by superior strength, the government succeeded in checking and even imprisoning him. But he would never admit himself conquered, and always—until the last tragic episode of his life—managed to wriggle free and to resume his career of bloodshed.

The Sioux Revolution. In 1875 many tribes of the Sioux and of some allied "nations" went on the warpath. Their Black Hills lands were stolen from them by the white men. Government agents had mistreated and cheated them. Altogether they deemed it better to plunge at will and, if need be, to die fighting rather than to starve or be cheated on reservations.

Up to this time Crazy Horse had confined his warlike efforts for the most part to conflicts with Crow, Mandan and other tribes hostile to the Sioux, and to raids on poorly defended white settlements. In such exploits he had won fame and had earned a generalship. Now he became one of the principal war chiefs of the whole uprising, scarce second in importance to Sitting Bull himself.

During a blizzard in the winter of 1875 General Reynolds, at the head of a force of regulars, made a sudden attack on Crazy Horse's camp. The general sought to cripple the Indians there by capturing all their ponies. For without a pony an Indian is of little value on the warpath. The ponies were caught by the troops and were herded together. But Crazy Horse and members of his band rushed through the blinding snow, past the guards, straight into the captured herd, waving blankets, screaming, firing guns and altogether making such wild uproar and confusion that the whole panic-stricken herd burst through the line of soldiers and stampeded into the prairie. The Indians, following the escaped ponies, trail far more quickly and easily than could the troopers, soon caught up with their steeds, mounted them and rode to safety.

General Crook followed up Crazy Horse's band, and first met them at Rosebud river, in Montana. There Crazy Horse and his 600 "braves" charged the soldiers with such ferocity and knowledge of savage tactics that Crook, after a furious battle, was beaten back.

He marched with his warriors to join Sitting Bull's red army. It was these two united bands that met and crushed Custer's troops at the Little Big Horn on June 25, 1876. Sitting Bull found his way to Canada after this campaign. But Crazy Horse and his followers, hotly pursued by General Miles, went back to Rosebud river, where they had defeated Crook. General Mullen (who followed up Crazy Horse's camp and, with some loss of men, succeeded in destroying it.)

The Last Battle. Crazy Horse then retreated toward the Big Horn mountains, trying in vain to shake off Miles' close pursuit. At length Miles caught up with him, and a terrible battle ensued. The soldiers could scarcely withstand the savages' headlong charges until the artillery was brought up. Then the bombardment of shells broke the Indian formation to pieces. Unable to cope with such overpowering odds as cannon and sniping, Crazy Horse was forced to retreat.

The following spring he and his followers were captured and placed on a reservation. He at once set to work planning a new outbreak. The government heard of his plot and sent a squad of men secretly to arrest him. On September 3, 1877, he was overpowered and seized. He wrenched himself free from the guard and while making a dash for freedom was shot dead.

Checking Accounts No. 1 What a Checking Account Is

A checking account with a bank simply means that you are depositing certain sums in money, checks or drafts from time to time with that bank against which you have the privilege of drawing checks, within the limit of your deposit. A check is a written order for money addressed to the bank, signed by you, and made payable to whomsoever you please. A checking account may be opened with the First National Bank of Connellsville by anybody of good character, either by mail or in person. Check books are furnished free.

It is always safer to make payments by check. Next week we will tell you why.

THE FIRST NATIONAL BANK

BILLY KUMMER MAKES NEW WORLD'S RECORD

Tosses 20 Fouls in Succession, Breaking Own Mark of 18.

GREATEST FEAT OF BASKETBALL

Spent Victory Over Uniontown Overshadowed by Remarkable Work on Free Line by Local Star—Joe Cavanaugh Shares the Honors.

Results Last Night.
Connellsville 33, Uniontown 22.
Johnstown 45, South Side 23.

Standing of the Teams.		
Johnstown	W. L. Pct.	
Uniontown	25 11 .500	
Connellsville	20 17 .541	
Carlisle	17 13 .563	
South Side	15 22 .409	

Game Tonight.

Connellsville at Johnstown.

A new world's record was established here last night when Billy Kummer tossed 20 fouls in succession, a feat it is said never before equalled in the history of basketball. In general belief that Kummer's previous mark of 18 was the best performance on record, but it was eclipsed last night when the peer of all players made his phenomenal run. Kummer missed four of his 27 chances, but 20 were made in a row. He had a record of 23 out of 24, missing his last three tries in the second half.

The defeat of Uniontown by a 43-22 score was only incidental. Never have the Seabirds been so completely outclassed. The score of 22-5, with which the second half ended, is a clear indication of the relative showing of the two teams. In the second half the locals at the pace down and relaxed to a game, enabling the visitors to score four of their five baskets in that period. Despite this fact, most of foul baskets were distant tries.

A more pitiable exhibition than that of Old Man Sears has never been seen here this season. Try as he might, he failed to connect a single time in the first half except from the free line and in that period the best he could do was 3 out of 11. Time after time he had an opportunity to score an easy basket, only to blow it in ridiculous fashion.

Sharing honors with Billy Kummer was Billy Joe Cavanaugh, the plugging, plodding center, getting the tap on O'Donnell about 48 times out of 60. Cavanaugh was the scoring star with five field goals, some of them remarkable shots. Doherty, Doherty, Doherty and the playing of both Dark and Beggs deserve honorable mention. Doherty showed radiantly as a dribbler, a role he has not essayed strongly of late. In the last minutes of play Leon Lyoff supplanted Beggs and performed splendidly against Beggs.

The Cokers from the first time Joe Cavanaugh got the tap on O'Donnell led the procession, the Uniontown bunch being within hailing distance only once. This was after Billy Kummer had shot two fouls, and Papa Sears came across with a like number. From the two mark, with the aid of Billy Kummer, the Cokers got busy and began unloading a series of foul and field goals. Joe Cavanaugh went crazy and made five field goals, four in the first half and one in the second. After the No. 2 post had been left, Joe put on steam and heaved a long one, after retrieving the ball from the arms of Charlie O'Donnell. Here Andy had the rest of his family, headstrong and Alton called five fouls in a row on the Sears case. Billy shot them all, bringing the Cokers total to 20 fouls. Billy then broke the ice with another one from the floor. This one had rings around it, the point of shot being from the middle of the floor. It landed like the first one John Alton made in Connellsville last year.

At the fifth foul, Andy became considerably excited and wild, making out things to Alton, whereupon the one said "Make it 20." Billy shot both.

Alton was regular calling the fouls, first it was on the Cokers and then on Uniontown, the only difference being that Billy Kummer was tossing them in with persistence regularly and Andy was mostly hitting every place but inside the ring with his. Kummer brought the score up to 11 when Uniontown called a time out with five minutes to go. The play so far had been fast and furious, the fifteen minutes of play seeming the shortest of an enemy yet.

Sears started the scoring after the intermission by pitching a foul after repeated efforts. Joe added two points and Billy continued to show off from the floor. Boosting the Cokers score to 18. Here Cavanaugh did his little stunt of addition and brought it up to an even 20. Two more fouls made it 22.

In the second half, Sears taking a pass from Swenson did his hop, skip and jump for Uniontown's total of 7 to start the session. Billy kept up the monotonous procession to the foul line and scored 21 while Sears added two for his team. After a pretty bit of team play, Cavanaugh missed an easy one but Kummer followed the shot and made good, quickly following with another safety. Two more fouls were added and Cavanaugh scored his final field goal. At this point the Cokers seemed to be slowing up and Uniontown took their score to 21 while the Cokers drew down 22.

Swenson set off and began to razz the Cokers but was kept busy looking after his own safety. Billy pitched 10 more fouls until the Cokers' score was 31. He then missed the last three called in succession. This lineup: Connellsville (43). Uniontown (22). Dark...right forward.... Beggs...right forward.... Doherty...right guard.... O'Donnell...right guard....

Beggs...left guard.... Sears...Substitution—Lisoff (5) for Beggs (18). Field goals—Cavanaugh 5, Kummer 4, Doherty 1, Sears 3, Beggs 2, Morris 1. Foul goals—Kummer 23 out of 27, Sears 10 out of 25. Score first half—Connellsville 22, Uniontown 5. Timers—White and Powell. Referee—Alton.

Basketball Notes.
Joe Cavanaugh certainly found the combination last night. The big center never was in better form.

Swenson's nickname should be "Roughhouse Mike." He pulls off some stuff that other players would hesitate to try. He mixed up with the kid in the second half swinging the Coker engine around. Kid kept on swinging and straddled out his right leg. If it had ever connected with the unburned youth, there might have been a dead Swede.

O'Donnell and Cavanaugh were wrestling for possession of the ball. Their arms became entwined and they started turning. They didn't stop until they hit the corner of the cage with Joe on top.

Immediately after Kummer pitched his fourteenth consecutive foul, Doherty and Swenson came together in an effort to stop Doherty. They spilled each other but "Plunger" kept going.

Dark blew a half way shot and Kummer followed, scooping the ball with one hand, making good.

When Joe made his third basket, O'Donnell trailed him the entire length of the floor. He reached Cavanaugh in time to push him in the cage after the shot and get a foul called on him.

The team work between Sears and Swenson which was responsible for the Cokers' defeat at Uniontown last week was conspicuous by its absence. Doherty certainly had the sign on the "Terrible Swede."

The Cokers almost pulled off one of the prettiest plays that has ever been attempted on the local floor. Almost is the word, for if Leo Lyoff had not been closely trailed by Beggs it would have been perfect. Cavanaugh as usual got the tap on O'Donnell. The tap went to Dark who baited, the ball to Kummer. Kummer in turn passed the ball to Doherty who had advanced. Beggs, however, did the "clinging vine" stunt and the play failed to materialize. Lyoff by the way played a bungling part in the five minutes he was in. His only chance from the side center missed by a hair.

During a timeout, Cavanaugh caught the score, and he and Alton to Bill Powell who was keeping time. "I could play you just as easy," Joe had then made four field goals and was still on the way.

Steve White appeared in uniform for the first time in many days. He made several circus shots during practice but did not break into the game.

Probably never were so many tries made for a single basket as in the first half when Sears, O'Donnell, Swenson and Doherty made innumerable shots, only to miss them all. For a time the fans were on the anxious seat for four the ball would not be taken out of that end of the cage. The visitors could not shoot, however, and eventually the ball was brought down the floor.

Swenson is like a big kid in the cage; good natured, but bustling and belligerent. He is willing to mix in any scrimmage and doesn't mind being rough or roughed.

Referee Alton is getting to be a fixture in Connellsville. He comes again today. The downy fellow is there with the game, its handling the game well despite a tendency to be rather strict interpreting the rules governing offenses.

No less than six double fouls. Once Sears had two fouls called because of his too strenuous protest. Kummer made both of them.

Connellsville fans are from a State bordering on the Mississippi river when other places talk about great basketball players. Mr. William Kummer is the one best but with the Cokers.

As a dribbler "Plunger" Doherty is entitled to the joyful hand. Several times he negotiated Kid Daries' pot maneuver of clutching down the floor and drawing a foul when jammed into the end of the cage.

It was hard luck for "Bush" Beggs that Doherty got that lone basket in the first half. "Bush" carried the ball to the Coker basket but lost it when two or three of his opponents charged him. In the mean time Beggs beat it up-play and made his goal without interference. This was one of the fouls Alton overlooked, and had it been called, the visitors would have probably been shut out in the first half.

Sears managed to find the basket from the field in the second half. He failed miserably in the first.

Cavanaugh's third basket was one of the longest that has been made on this floor. It was from deep midfield and did not touch the rim going through.

The Cokers made four baskets in the first half and Cavanaugh cornered all of them.

Beggs played a grand floor game, likewise Kid Daries, even if they failed to score. Their defensive work was splendid.

Morris got his basket in the second half when there were only two Cokers in the backfield to guard three men.

Steve White and Bill Powell kept time. When Uniontown asked for a timeout in the first half Steve forgot to check the minutes and had a foul. Both sides were well winded, and neither side gained by the oversight. In the first half both teams battled

SURELY BREAKS UP A BAD COLD

The Most Severe Cold and Grippe Misery Will Be Relieved in Just a Few Hours.

It is a positive fact that a dose of Pope's Cold Compound taken every two hours until three consecutive doses are taken will cure Croup, Croup, Croup, the most severe cold, either in the head, chest, back, stomach or limbs.

You distinctly feel the cold breaking and all the disagreeable grippe symptoms leaving after the very first dose. It promptly ends the most insupportable headache, dizziness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges. Pope's Cold Compound is the result of three years' research at a cost more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not of service in the treatment of colds or grippe.

Take this harmless Compound as directed, with the knowledge that there is no other medicine made anywhere else in the world, which will cure you cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pope's Cold Compound, which any druggist in the world can supply.

For 15 minutes Uniontown then sent up a call for help by asking, for timeout. The Cokers needed it just as badly, apparently, but were content to keep going until the bell rang, if necessary.

Sam Brown, the old National league baseball star and Mike Kelly of the Central Hotel, came over from Scottsdale and cheered vociferously for the Cokers.

WORKING ON SPAN.

West Penn Will Soon Have More Trackage at Shops.

Work on the new spur track for the use of the West Penn railways is progressing despite the weather conditions. The new spur lies between the West Penn storehouse and the Pennsylvania railroad tracks. The track will be about 150 yards long.

Shovelers are working on the removal of dirt this week and it is expected that the job will be finished some time next week.

In Memory of General Corbin.
NEW YORK, Jan. 16.—(Special.) A bronze tablet to the memory of the late Major General Henry C. Corbin, U. S. A., was unveiled in Corbin Hall, Governor's Island, today with interesting ceremonies.

LAST CHANCE FOR FREE LAND.
A reservation of 100 acres of land is now open in Mexico. Homesteaders from only requirement is to have two acres of banana planted within five years. An authorized Improvement Co. will plant the banana and market them on your share. Write to the U. S. A. for more particulars. Address: The Rio Tinto Land Co., Block 115, Greensburg, Pa. They are distributors for the U. S. A. You need not go to Mexico.
